S-200

80 year
anniversary

Deknuddt Mirrors is a family owned and Belgian based mirror maker brand, that develops and produces premium, precision crafted mirrors. This year, we proudly celebrate our 80th anniversary. Since 1946, we unite functional perfection with **unique designs** for great interiors. Our mirrors are created by our in-house designers or in close and respectful cooperation with international designers. Our **Master mirror makers** proudly produce them using only the best European glass.

Your mirror is a valued element in your home. Consciously and unconsciously you will see it every day. It is a part of your interior and since 2022, we offer solutions for your outdoor living space as well. A mirror contributes to creating the **atmosphere** which makes you feel at home. It **catches and reflects light** and so helps you to create the sense of more space. It highlights your favourite corner in a unique way. It will **make you look great** before you go out.

We are inspired by aesthetics and **motivated by quality**. We guarantee that quality with a 7 year warranty on each mirror that we produce and a 2 year warranty on outdoor mirrors. When it comes to mirrors, we are very pleased to be at your service.

About us

About us

Master mirror makers

You will find Deknuidt Mirrors all over the world. Since 3 generations, we make our mirrors in our authentic atelier in Deerlijk, a small village in Belgium. Every single mirror goes through the hands of our skilled and experienced craftspeople that we proudly refer to as our Master mirror makers.

Our goal is for our mirrors to grow old with you.

Besides the fact that our mirrors will last for generations, they are among the most environmentally friendly on the market. The manufacturing process in our own ISO certified, Belgian plant complies with the strictest environmental legislation. We combine traditional crafts with the most recent technologies to create our collection of unique mirrors for great interiors.

Reflecting our commitment to the planet

Driven by our goal to minimise our ecological footprint, we continue to measure the progress we've made over the past few years.

These are the key figures and focus areas:

- 100% water-based, solvent free mirror varnishing
- 3800 solar panels
- 25% reduced energy consumption
- Strongly reduced water waste
- Eliminate harmful substances
- Electrical cars and bike leasing
- People first
- Eco friendly packaging

Design studio

Designers are at the heart of our company, the starting point of every new idea. From the first sketch to the finished mirror.

Next to our in-house designer Esther, we are proud of our many partnerships with international designers.

Discover their stories on our website.

Deknudt for projects

Our mirrors are more than just reflections, they are transformative statement pieces that elevate interiors worldwide. Found in residential and commercial spaces alike, our collections are seamlessly integrated into projects by interior architects and designers through a global network of trusted partners.

Each mirror is a harmonious blend of timeless design and meticulous craftsmanship, brought to life by our Master mirror makers. From boutique hotels to renowned chains such as Marriott, Hilton and Kempinski, our mirrors add elegance, functionality, and unexpected details that often redefine a room.

Whether you're looking for a signature piece from our collection or a bespoke design tailored to your specific vision, our expertise and commitment to quality ensure exceptional results. We specialise in creating made-to-measure mirrors for projects of all sizes, collaborating closely with you to craft designs that align perfectly with your space and elevate your interior.

Studio Segers

➤ Luna Collection,
Void, Passepartout

Studio Segers is a Belgian creative studio for architecture, product design and graphic design. In 2022, its founder Wim Segers received the prestigious Henry van de Velde Lifetime Achievement award. Respect for craftsmanship and tradition are their basic values.

Luna is an architectural, minimalist sculpture, stripped of anything superfluous.

Thibaud Scarcériaux
see p. 177

45 × 35 × 45 cm

Thibea Scarcériaux

➤ Fragments

Thibea Scarcériaux is a Belgian designer working at the intersection of industrial design, material research, and object-making. His practice is rooted in function, but driven by an investigative approach to form, use, and construction.

Fragments is a versatile glass and double-sided mirror side table that continuously changes appearance through reflection and transparency. Designed to function both as a standalone piece or as a modular element to create a display cabinet, it seamlessly adapts to its surroundings.

James Van Vossel

» Attitude, Linea

James Van Vossel is a versatile designer driven by a desire to redefine archetypes, constantly searching, questioning and working with a steady flow of fresh insights. His creations reflect a pursuit of clarity, balance and functionality, resulting in objects that are both innovative and purposeful.

Attitude explores the dynamic interplay of reflection and refraction. Narrow vertical strips of mirror, interspersed with black sections, create a rhythm that shifts and transforms with your perspective. The strips seem to shift and dance, offering intriguing and ever-changing reflections. The mirror is set in a solid black oak frame, which adds extra depth and texture.

Squeeze

Designed by
Paul Cocksedge
see p. 190

93 × 2,5 × 150 cm

Paul Cocksedge

› Squeeze

© Mark Cocksedge

Paul Cocksedge is an internationally acclaimed British designer who has built a reputation for innovative design over the past two decades. He constantly explores the boundaries of technology and materials.

Squeeze is inspired by soft, compressible materials. These were then pressed - squeezed - into a 2D mirror, transforming the essence of the soft shapes into a flat, reflective surface. The visual frame around the mirror holds everything together and documents the transformation.

Esther Everaert

Brand director

↘ Doily, Calco, Ornato, ...

Esther is the creative drive behind Deknudt Mirrors. In her role as brand director, she combines design, strategy and technology and aims for a connection on a deeper level with our customers, thanks to well-thought-out, timeless and unique mirrors.

The **Doily** collection takes its cue from a decorative detail that has quietly accompanied everyday life for generations. Inspired by traditional crocheted doilies, these two mirrors translate a familiar pattern into mirror, giving it a completely different presence.

Karim Rashid

In-house designer
 ➤ Nimbus & Vibe

Karim Rashid is one of the most distinctive and influential voices in design today. With over 4,000 designs in production, more than 400 international awards, and projects realized in over 47 countries, he continues to redefine the role of design in contemporary life.

Inspired by the ephemeral beauty of clouds and constant movement, **Nimbus** is a bold, organic design mirror that brings openness and movement into your space. More than a mirror, it is a sculptural presence that blurs the line between function and art.

45 × 1,5 × 170 cm

Jeffrey Huyghe

» Ray, Layers

Jeffrey is driven by a passion for engineering. His profound understanding of production processes, mechanics and materials, empowers him to push limits and challenge conventional boundaries.

Layers combines a clear, fluted glass panel with a full-length mirror. This layered composition adds depth without adding weight. The linear texture of the glass catches the light, softens shadows and introduces a subtle vertical rhythm.

Oculus^{NEW}

Designed by
Jonas Van Put
see p. 202

66 × 47,5 × 84,6 cm

Jonas Van Put

» Oculus

Jonas Van Put designs objects and spaces that support both personal and collective experiences. His practice moves fluidly between the studio and the workshop, where thinking and making continuously reinforce one another. By turning ideas into tangible prototypes at an early stage, he creates designs in which material, construction and use are in constant dialogue with their context.

Oculus functions as a gateway between two worlds. Not by revealing a different reality, but by offering an unfamiliar perspective on the one that already exists. The object invites people to pause, shift their gaze and look again.

Instructions instructions

Suspension system

See FAQ page

For all our suspensions systems, the **matching accessories and suspension instructions are always included** in the packaging of the mirror.

Rotating the washers allows minor adjustments to the level of the mirror. Mirrors that can be installed leaning against the wall are equipped with anti-slip and safety chain.

You will find helpful videos and advice on our **faq page** and on the **product page** of your mirror.

Replacing mirrors without drilling new holes is possible with our flexible and fast, easy suspension system. Check our website for more information.

Care instructions

See website [deknudtmirrors.com/faq](https://www.deknudtmirrors.com/faq)

01. Cleaning the mirror

The best way to clean your mirror is to polish it with a cloth that was slightly moistened with hot water. Then rub it dry and your mirror will shine like it used to. You should avoid the use of glass cleaning products. They are too aggressive for the reflecting layer of silver.

02. Storage

Store the mirrors in an upright position and in the original packaging.

03 Label

Do not stick any labels on to the frame of the mirror. Attach them to the mirror glass instead. This will allow you to peel off the label more easily.

80 year
anniversary

One day in 1946, my grandfather Frans Deknudt decided to make a mirror. Not just any mirror, but one that was more beautiful, more innovative and of higher quality than those available at the time. That ambition became the foundation of Deknudt Mirrors. 80 years later, we are proud to continue that same vision as a third-generation family-owned business.

Jan Deknudt,
Managing director / third generation
